## PREFACE

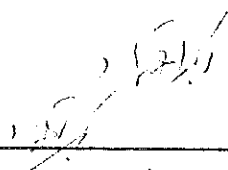

This manuscript is the product of a series of tape-recorded interviews conducted for the Oral History of Iran Program of Foundation for Iranian Studies by Farrokh Ghaffari with Akbar E<sup>C</sup>temad in Paris in November, 1982.

Readers of this Oral History memoir should bear in mind that it is a transcript of the spoken word, and that the interviewer, narrator and editor sought to preserve the informal, conversational style that is inherent in such historical sources. Foundation for Iranian Studies is not responsible for the factual accuracy of the memoir, nor for the views expressed therein.

The manuscript may be read, quoted from and cited only by serious research scholars accredited for purposes of research by Foundation for Iranian Studies; and further, this memoir must be read in such place as is made available for purposes of research by Foundation for Iranian Studies. No reproduction of the memoir either in whole or in part may be made by microphoto, typewriter, photostat, or any other device.

اینجانب متن و نوار مصاحبه‌های انجام شده در ارتباط با برنامه  
" تاریخ شفاهی ایران " را به بنیاد مطالعات ایران هدیه  
میکنم تا صرفاً " در اجراء " برنامه‌های تحقیقاتی بنیاد از آن استفاده  
نمایند.

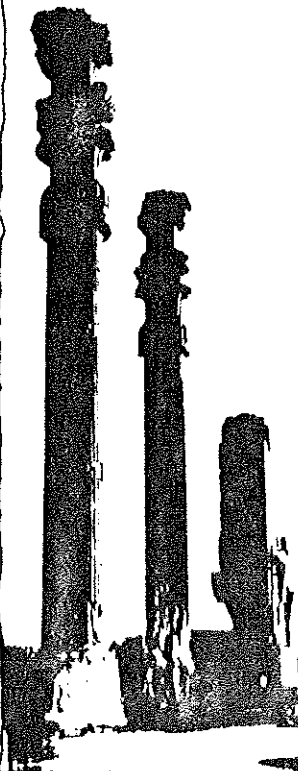

موارد دیگر استفاده از این نوار و متن باید با اجازه اینجانب  
باشد.

## BIOGRAPHICAL NOTE

Dr. Akbar E<sup>C</sup>temad was born in Hamadan, Iran in 1930. He studies electrical engineering at Lausanne Polytechnique, and Nuclear Engineering at the Public Institute of Science and Atomic Technology in France. In 1963, he received his Ph.D. in Physics with specialization on Nuclear Reactors at the University of Lausanne. Upon return to Iran in the summer of 1965, he was employed at the Plan and Budget Organization, and also served as an Associate Professor of Physics at the Faculty of Science at Tehran University. He was appointed as the Deputy Minister of Science and Higher Education in 1968, and the Chancellor of Bu-<sup>C</sup>Ali Unievrsity of Hamadan in 1973. His last post was Director of the Nuclear Energy Organization of Iran.

Dr. E<sup>C</sup>temad's extensive service to the educational system of Iran has enabled him to present a most valuable analysis of the various educational establishments, policies and reforms in Iran. Moreover, his experiences with the nuclear enery projects in Iran are most informative for any review of planning and development in Iran.

CONTENTS    INTERVIEW #1    AKBAR ECTEMAD

<u>SUBJECT</u>	<u>PAGE</u>
Family background, education, careers, beginning of Iran's nuclear programs, Tehran University nuclear research, Plan Organization participation	1-2
Nuclear research and first nuclear reactor in Iran	3-4
Family characteristics, traditions and customs in Hamadan, importance of values	4-6
Membership in the Tudeh Party while at high school, managing director of the Tudeh Party's daily paper "Toward the Future"	6-9
Nationalization of oil and the Tudeh Party's position, the Tudeh Party activities abroad, Mossadeq's premiership, Festival of the Young Communists in Bucharest, Rumania, the Tudeh Party reaction to the events of 28th of Mordad, withdrawing from the Tudeh Party while studying in Lauzanne	10-14
His research for an institute associated with the Swiss Federal Government in the area of atomic energy, return to Iran and employment in the Plan Organization	15-17
Teaching at Tehran University, directorship of the Institute for Scientific and Educational Planning and Research, deputy of Ministry of Science and Higher Education, his colleagues and their characteristics, recollections of his return to Iran	17-22
Establishment and functions of the Ministry of Science and Higher Education, university administration at the top level, government/students relations, Educational Revolution	23-27
Relations between Ministry of Science and Higher Education, universities, and university chancellors, the latter's political use of their positions	27-31
Initial positive response of the provincial universities to the creation of the Ministry of Science and Higher Education and the assistance rendered by the Ministry to these institutions in the area of formation of boards of trustees, initiation of development plans, and allocation of larger budgets	31-32
Rivalry between the private universities with powerful boards of trustees with access to the Shah and the provincial government supported universities	32-33

<u>SUBJECT</u>	<u>PAGE</u>
The conflicts produced within institutions by the Shah's policy of creating parallel institutions with favored status to counteract problems of red tape and lack of courage and motivation in the traditional institutions	34-35
Problems created within the academic system because of unnecessary and contradictory government interference, conflict between government policy and the Board of Trustees Law governing the administration of universities	36-37
Methods and procedures of interaction between the government and the universities	38-41
Problems of education in Iran and the role of the Council of the Educational Revolution	41-44
Relations between Ministry of Science and the government; the former and the Ministry of Education; technical training in Iran	45-49
The Shah and the government's role in solving problems of the universities, the issue of presenting one's view in the presence of the Shah, the Shah's openness to different views, some instances, the government access to the Shah	49-56
General tendency among the high officials of the government toward, either, the private sector after service in the government, or appointments to other important positions in the country	57-58
Ramsar Conference on evaluation of the Educational Revolution, government domination over the functioning of the Educational Revolution, lack of educational planning, lack of means to evaluate the performance of the educational institutions, lack of coordination in government activities	59-61
Secretariat of the Educational Revolution at the Ministry of Science and Higher Education, its functions, Secretariat of the Educational Revolution at the Ministry of Court, its functions	62
Functions of the Institute for Scientific and Educational Planning and Research	63
The meaning of the Educational Revolution, a division of the White Revolution program	64

CONTENTS    INTERVIEW #1    AKBAR E'CTEMAD

<u>SUBJECT</u>	<u>PAGE</u>
The overall success of the Educational Revolution, and its drawbacks	65-67
Efficiency of individual Ministers of Science and Higher Education	68-69
The issue of exchange of ideas at the government and university levels, the Shah's dissatisfaction with censorship and lack of exchange of ideas, some instances in this regard	69-76
The Institute for Scientific and Educational Planning and Research, its functions and achievements, creation of the Bu-Ali Sina University, chancellorship of the University, the process of appointment to high offices, a new method of education at the Bu-Ali Sina University	77-83
Governmental and non-governmental Councils on various aspects of education, their role and responsibilities	84
Creation of the Nuclear Energy Institute, difficulties faced, nuclear energy as a source for provision of electricity	85-90
Factors behind the development of nuclear energy in Iran, development of alternative sources of energy, oil, gas, hydro-electric energy	91-93
Issues involving the development of nuclear energy in Iran: sources of uranium, economic dependence, costs; issues involving supply of electricity from different sources of energy in Iran	94-98
Dangers of nuclear industry, safety considerations, costs of power plants, impact of the development of nuclear industry on the overall growth of technology and industry in a country, timing of nuclear industry in Iran	98-103
Structure and functions of the Nuclear Energy Institute, other organizations associated with the Institute, the Institute's training programs and difficulties faced in this regard	103-106
Planning of the tasks, researches, health and safety considerations, earthquake forecasting, PWR "Pressurized Water Reactor" as the appropriate nuclear technology for Iran, choice of location, the factors involved in choice of location	107-110

CONTENTS    INTERVIEW #1    AKBAR ECTEMAD

<u>SUBJECT</u>	<u>PAGE</u>
Conclusion of plans for construction of some power plants	110-111
Purchase of uranium, attempts in discovering uranium in Iran, international cooperation in production and discovery of uranium abroad, international cooperation in the area of uranium enrichment, processing, and in fuel technology	112-115
International regulations regarding sale of nuclear technology, nuclear relations between Iran and the United States	115-121
Nuclear relations with France and Germany	121-122
Nuclear relations with England, Japan, and India, infrastructural bottlenecks, the processes of signing agreements with foreign companies	123-126
Fighting corruption, pressures, and interference in the affairs of the Nuclear Energy Institute, some instances, highly qualified personnel of the Institute	127-133
Nuclear waste, the Shah's interview concerning this matter, relations with Ministers and Prime Ministers	134-139
The Shah's view on the necessity of atomic energy for Iran, contribution of the nuclear energy industry to the advancement of the country	140-141
Factors behind the Islamic revolution	142-152
